VISION

To be the global leader in the field of public financial management with superspecialisation in Budgeting, Treasury management, Accounting and Internal Audit.

MISSION

- To be at the forefront of the entire gamut of budgetary processes and reforms.
- To continue to play a seminal role in Treasury management using an ICT platform.
- To prepare accounts as per global standards using a community of good practices.
- To provide leadership in the field of Internal audit by adopting International best practices through creation of a pool of certified Internal auditors.
- To consistently upgrade professional skills to international standards and to disseminate and apply professional knowledge/skills at sub-national, national, regional and global level.

OBJECTIVES

- To improve budget formulation & reporting through capacity building.
- Effective treasury management through enhanced use of ICT.
- To generate timely and accurate accounts through increasing use of realtime accounting.
- To provide independent and objective assurance on programs for better outcome evaluation.
